

CUSJ COLUMBIA UNDERGRADUATE SCIENCE JOURNAL

2006 Spring Symposium

Lalit Patel, *Spring Symposium Coordinator*
Gabriel Morris, *Founding Editor, CUSJ*

Accepting Abstract Submissions in Spring 2006

The *2006 CUSJ Spring Symposium* will be a gathering of undergraduate researchers presenting the research of highest scholarship that Columbia students have to offer. This presented research will be in the form of an abstract and an accompanying presentation.

Submitted abstracts selected for presentations at the *Symposium* will be published under the umbrella of the *CUSJ* in an open-access format.

Abstracts submitted to the *2006 CUSJ Spring Symposium* for publication must be received from students who are:

Enrolled full-time in Columbia College, The Fu Foundation School of Engineering and Applied Science, The School of General Studies, Barnard College, or have recently graduated from one of these schools.

Submitted abstracts must be the result of significant scientific research either on or off campus. If you are planning on submitting a project that has been presented before at the *Symposium*, the staff of the *CUSJ Symposium* strongly recommends that you emphasize the landmarks your project has reached in the last year.

Specific dates and locations will be broadcast via this website during early Spring, 2006.

For more information, please do not hesitate to contact Lalit Patel, the *CUSJ Symposium Coordinator* (lrp2103@columbia.edu).
